

## Deepwater Horizon Disaster Update

There are 2 previous issues of the NTRL newsletter on the Deepwater Horizon Disaster (November 2011 and May 2013).  
See <http://www.ntis.gov/products/ntrl/ntrl-archives/>

### ADA609494

Drifter Motion in the Gulf of Mexico Constrained by Altimetric Lagrangian Coherent Structures.

Naval Research Lab. Detachment, Stennis Space Center, MS.

2013, 6p

#### Related Categories/Subcategories

47B (Dynamic Oceanography)

47C (Physical & Chemical Oceanography)

76D (Navigation Systems)

**Keywords:** Altimeters, Height finding, Ocean currents, Buoyancy.

### ADA610874

Submesoscale Dispersion in the Vicinity of the Deepwater Horizon Spill.

Naval Research Lab., Stennis Space Center, MS. Oceanography Div.

2014, 8p

#### Related Categories/Subcategories

47C (Physical & Chemical Oceanography)

68D (Water Pollution & Control)

**Keywords:** Forecasting, Ocean currents, Oil spills, Water pollution.

### PB2013108118

Budget Justifications and Performance Information, Fiscal Year 2014: Department of the Interior, Bureau of Ocean Energy Management. Department of the Interior, Washington, DC. Office of Inspector General.

2013, 114p

#### Related Categories/Subcategories

97G (Policies, Regulations & Studies)

48A (Mineral Industries)

47 (Ocean Sciences & Technology)

**Keywords:** Performance information, Budget justifications, Environmental assessments.

### ADA590644

Institutionalizing Emerging Technology Assessment Process into National Incident Response.

Coast Guard, Washington, DC.

2013, 18p

#### Related Categories/Subcategories

70B (Management Practice)

57U (Public Health & Industrial Medicine)

41I (Job Environment)

**Keywords:** Emergencies, Lessons learned, Response.

### PB2013109745

Fatal Injuries in Offshore Oil and Gas Operations-United States, 2003-2010. Morbidity and Mortality Weekly Report Volume 62, Number 16.

Centers for Disease Control and Prevention, Atlanta, GA.

2013, 20p

#### Related Categories/Subcategories

48A (Mineral Industries)

**Keywords:** Offshore drilling, Injuries, Gas operations, Fatality rate.

### DE97763099

Safety management, under different regimes.

Norsk Petroleumsforening, Oslo.

1996, 12p.

#### Related Categories/Subcategories

92E (International Relations)

97 (Energy)

**Keywords:** Petroleum Industry, Management, North Sea, Safety.

### Newsletter

## National Technical Reports Library

**Purpose:** To bring you a sampling of the latest documents added to the NTIS Database and to help you gain a greater understanding of the wealth of scitech information available from the National Technical Information Service.

**Director:** Bruce Borzino

**Associate Director for Product Management &**

**Acquisition:** Don Hagen

**Manager, Product & Program Management:** Wayne Strickland

**Technical Information Specialist:** Greg Guthrie

**508 & Accessibility:** William H Joseph

**Design & Layout:** Brian Congdon

This Newsletter is published twelve times a year, and delivered via e-mail on or about the 15th of each month. **FEDERAL LABORATORY CONSORTIUM FOR TECHNOLOGY TRANSFER**

**FLC** *advancing federal research and technology*

The Federal Laboratory Consortium for Technology Transfer (FLC) and the National Technical Information Service (NTIS) continuously collaborate on the process of Federal Technology Transfer.

The FLC is the nationwide network of federal laboratories that provides the forum to develop strategies and opportunities for linking laboratory mission technologies and expertise with the marketplace. The FLC consists of more than 250 federal laboratories.

As an agency of the U.S. Department of Commerce, the NTIS mission is to provide for the acquisition, archiving and dissemination of technological, scientific, and engineering information. Much of this permanent repository of information is the result of research conducted by federal laboratories that are members of the FLC. The collaborative effort of the FLC and NTIS ensures the perpetual availability of this vital research to American businesses and industries.

# NTRL Increases Access to Federal S&T Reports

NTIS has launched greater access to federally funded science & technology information and reports. Starting in October 2014, U.S. citizens have free access to all electronically-available documents in the NTIS collection.

Currently there are more than 850,000 documents digitized for free public access. For the first time, Individuals have the option to subscribe to the NTRL in order to benefit from the Premium features of the database, such as advanced search, more free downloads, and digitization-on-demand (NTRL Premium Institutional).

Please feel free to contact me if you have any questions.

## CENDI (Commerce, Energy, NASA, Defense Information Managers Group)

CENDI (Commerce, Energy, NASA, Defense Information Managers Group) is an interagency group of senior Scientific and Technical Information (STI) managers from 14 United States federal agencies.

CENDI traces its roots to the Committee on Scientific and Technical Information (COSATI) of the Federal Council on Science and Technology. COSATI was established in the early 1960s to coordinate the management of the results from the U.S. government's increasing commitment to scientific research and technology development. The scientific and technical information (STI) managers of the government's major research and development (R&D) agencies worked within COSATI to standardize guidelines for cataloging and indexing technical reports. COSATI ceased formal operations in the early 1970s.

To continue the cooperation begun under COSATI, managers of agency STI programs from Commerce (National Technical Information Service), Energy (Office of Scientific and Technical Information), NASA (HQ/STI Division), and Defense (Defense Technical Information Center) began meeting periodically to discuss common topics and stimulate more effective cooperation.

In 1985, a Memorandum of Understanding was signed by the four charter agencies and CENDI was established. From this small core of STI managers, CENDI has grown to its current membership, which represents the major science agencies, the national libraries, and agencies involved in the dissemination and long-term management of scientific and technical information.

# Public Access Plans of U.S. Federal Agencies

**Additional Public Access Plans will be posted as agencies release them.**

In a memo released by the Office of Science and Technology Policy (OSTP) on February 22, 2013, each Federal agency with over \$100 million in annual conduct of research and development expenditures was directed to develop a plan to support increased public access to the results of research funded by the Federal Government. This included any results published in peer-reviewed scholarly publications that are based on research that directly arises from Federal funds, as defined in relevant OMB circulars (e.g., A-21 and A-11).

The full memo can be viewed at <https://www2.icsu-wds.org/files/ostp-public-access-memo-2013.pdf>.

Some agencies not subject to the OSTP memo are voluntarily developing Public Access Plans and are included below.

**Ecosystem Services Approach to Assessing the Impacts of the Deepwater Horizon Oil Spill in the Gulf of Mexico.**

National Research Council, Washington, DC. Division on Earth and Life Studies;

“The unprecedented volume, depth, and spatial scale of the Deepwater Horizon (DWH) oil spill created many enormous challenges for policymakers. Among these was the difficult task of restoring the ocean and coastal ecosystems of the Gulf of Mexico (GoM) to the condition they would have been in but for the spill.

Although multiple state and federal agencies had experience in the restoration of damaged natural resources, no agency had ever been faced with a spill affecting such a wide area and such a broad range of ecosystems. This report aims to answer the question: in what ways might using an ecosystem services approach help these agencies to achieve their mission, as mandated by the Oil Pollution Act of 1990, of making the environment and the public whole.”

**NTRL**

NATIONAL TECHNICAL REPORTS LIBRARY  
U.S. Department of Commerce

**The National Technical Reports Library (NTRL) enhances accessibility to the NTIS technical reports collection. It provides access to:**

- Bibliographic records of more than 2,500,000 technical reports
- Downloadable full text of 850,000 of these reports in PDF format

Subscription rates are based on the number of IP's.

The NTRL operates on a system interface that allows users to do queries on the large NTIS bibliographic database. The intent is to broadly expand and improve access to over 2 million bibliographic records (pre-1960 to present) and 800k full-text documents in PDF format that are directly linked to that bibliographic database.

For more information, go to:

<http://www.ntis.gov/products/ntrl>

**Just Revised: the NTIS Database Search Guide**

Gain an in-depth understanding of the NTIS database structure with this new guide:

- Comprehensive list of NTIS Categories
- Helpful information and search hints
- Reference Guide to online commercial services and the NTRL
- Great Reference Manual & Teaching Tool

**Subject Category Codes/Classification**

NTIS classifies citations into 39 subject categories. Each of these subject categories is divided into subcategories. This method provides sorting categories for both hard and soft sciences. All subject categories consist of three character codes: two numerics and one alpha character. The numeric codes represent entire categories the alpha codes are used to designate subcategories within these broad categories. The number of NTIS subcategories posted to an information product average from three to five, although there are some reports with more.

Any of the technical reports listed in this newsletter can be ordered directly from the National Technical Information Service, simply click on the title to go to the product detail page on NTIS.GOV.

If your organization is a subscriber to the National Technical Reports Library, most of the reports listed can be downloaded free there. For information on how to subscribe to NTRL, go to <http://www.ntis.gov/products/ntrl>.

## Title Index - For NTRL Users

The following is a list of the titles included in this month's issue, without links to the NTIS Web site. The list is in alphabetical order by title.
