

Is your eLearning Accessible?

ADA/Section 508 Compliant eLearning by CourseAvenue, LLC

Is Your eLearning ADA/Section 508 Compliant?

CourseAvenue is reducing the cost, challenge and complexity of building accessible, compliant *and usable* eLearning... from PowerPoint import to pure custom content.

The Accessibility Player: Validated Accessibility Built-in

The screenshot displays the CourseAvenue Accessibility Player interface. The main content area shows a welcome message: "Welcome to CourseAvenue's eLearning course on building Accessible eLearning." Below this, the title "Accessible eLearning: Meeting the Challenge Head On" is displayed. A navigation menu on the left includes "Menu", "Tools", "Glossary", and "Help". A callout points to this menu, stating: "High-contrast color schemes used in the course skin". The main text area contains the instruction: "Click on the 'next' button below to continue." A callout points to the text "Accessible eLearning:", stating: "Color-differentiated in-text hyperlinks; keyboard and screen reader accessible". At the bottom, there are media controls including play, pause, and next buttons. A callout points to these controls, stating: "Accessible media controls". An audio transcript window is open on the left, displaying the text: "To begin, click on the 'next' button below." A callout points to this window, stating: "Audio transcript window displays the text for the audio of any narrated pages". A video player is embedded on the right, showing a man in a suit. A callout points to the video player, stating: "Integrate media into an accessible compliant course." Below the video player, there are additional media controls including play, pause, and next buttons. A callout points to these controls, stating: "Accessible media controls; toggle play/pause, captioning, enable fast forward, rewind, etc." The browser window title is "CourseAvenue Courseware Player - Windows Internet Explorer".
