

AMERICAN SYSTEMS specializes in delivering a full range of professional, technical, and non-technical training services built around total solutions servicing any industry. We provide turnkey operations in instructional design, organizational development, needs assessments and classroom training through multifaceted delivery vehicles including classrooms, virtual classrooms, web-based delivery, integration with Learning Management Systems (LMS), e-Learning, and innovative methodologies that meet our clients' needs.

Long-term partnerships with our customers provide us with exceptional insight into the diverse training needs of all levels of employees - from interns to senior executives.

Our outstanding professional and administrative staff develops cutting-edge instructional training materials, facilitates energetic interactive training and orchestrates organizational development that surpasses customer expectations.

We adapt proven, visionary techniques and develop successful approaches to meet customer training needs. Additionally, our instructional tools and processes ensure our customers experience a significant increase in training capability through competitive pricing.

We deliver proactive management and substantive courses to all our customers including: Department of Homeland Security, Transportation Security Administration, Department of Defense, Department of the Navy, Department of Transportation, and Federal Aviation Administration.
